

## Spring 2021 Outing Policy Addendum March 18, 2021

As an addendum to the recent release of ADK's spring Outings policy, the following is provided to bring greater clarification to the limitation on how many participants may join an outing, to include a hike.

“In the event that the number of participants exceed the allowable number, the hiking leader may choose, at his or her discretion, to appoint a responsible person to serve as a second leader, thus allowing the participants to break into separate groups. As long as there is sufficient separation on the outing that would allow for both groups to maintain their distance, this practice is permissible at the discretion of the outing leader.”

Michael Barrett  
ADK, Executive Director

### **Note to Hike Leaders (further clarification)**

- In the event of more than 10 signups, as stated above, you can form two groups of 10 or less in each group.
- If the hike is joint, then **2 Release forms** for each club for each hike would need to be filled out.
- The groups must go in opposite directions or one group should leave 15 minutes later.
