

WESTCHESTER TRAILS ASSOC.

FALL HIKING SCHEDULE OCTOBER, NOVEMBER and DECEMBER, 2021

Covid-19 Policy

Hikers should have their own Personal Protective Equipment (PPE) with them at all times. This includes a mask or other face covering and hand sanitizer/soap.

For the safety of all concerned, anyone who answers “yes” to any of these questions cannot be allowed on the hike:

1. Do you currently have any symptoms of a respiratory infection (including cough, fever, sore throat, shortness of breath, or loss of taste/smell)?
2. Have you had any of the above symptoms in the past 10 days?
3. Have you tested positive for COVID-19 in the past 10 days?
4. As far as you know, have you had contact with any confirmed or suspect COVID-19 case within the last 10 days?
5. Have you traveled outside of the U.S. in the last 10 days?

Face masks should be worn in crowded outdoor areas and when indoors or sharing vehicles, regardless of vaccination status. Participants who are not from the same household should maintain social distancing at all times. *Some leaders may have additional restrictions on their hikes due to the increasing prevalence of the Delta variant - please check with the leader at the time of registration for details.*

Hiking boots and sufficient water (1-2 liters) are required on all hikes. A trail lunch should be carried unless otherwise noted. Hikers with improper footwear, without enough water, or who are otherwise unprepared, may be refused or turned back by the leader. In fairness to yourself and others, please be honest about your hiking experience and choose a hike within your abilities. Check with the leader if you have any questions about pace, terrain, or any other aspect of the hike.

Ratings are based on terrain (mileage is stated separately in the description). An “easy” hike is one with relatively flat terrain. A “moderate” hike has steeper grades, possibly going up and down all day, and may involve some bushwhacking or short rock scrambles (like much of Harriman Park). A “strenuous” hike has steep ascents, often with rough or difficult terrain on much of the hike (like most Schunemunk trails, Breakneck Ridge, etc.). These ratings apply during good weather; bad weather may lead to poor footing and increase a hike’s difficulty.

Carpooling arrangements are entirely voluntary and entail no obligation on the part of the drivers. Passengers should reimburse the driver for a share of the expenses. We suggest that you multiply the miles driven round trip (to and from the trailhead) by 30¢ per mile, add tolls and parking fees if applicable, and divide the total by the number of people in the car (including the driver). You may wish to round these amounts up or down to the nearest dollar, to make things easier.

Sunday, October 31 - **Manitou Point Preserve**. 3-4 miles, easy terrain. Even though this is only a three hour hike or less, it is one of the best. They have done a great deal of work in this preserve off Route 9D in Garrison - redesigning and blazing trails, addition of a stone stream crossing, and construction of a riverfront cantilevered bridge on the river trail. 40% of the route is right along the Hudson River. It is considered a relatively easy hike but the trails are "rugged" meaning that they are narrow and rocky, but we will take our time. Good hiking boots and hiking poles are suggested. Bring sufficient water and a snack. The parking lot can be easily passed as the sign is not that great. The actual address is 411 Route 9D, Garrison, NY. There is a small wooden sign which has numbers "411" at the parking lot and a small white sign which says Manitou Point Preserve. It is 1.7 miles as you get on 9D from the bridge. But here are some details: The route is located in northern Harriman State Park, partly on the Long Path and partly on unmarked, easy to follow, soft earth trails.
